TEACHING EXPERIENCE (Instructor-of-Record)

Art and Non-Threatening Technology, Ohio University, Summer, 2017
Art and Non-Threatening Technology is a special topics course developed by the instructor to explore a variety of technologies and their implications in the art world. Students are given access to learn new technological skills and tools in order to create original artworks. Topics include analog and digital video editing, 3D modeling, augmented reality, animation and projection, in addition to an introduction to laser cutters, vinyl cutters, and 3D printers.

TEACHING EXPERIENCE (Teaching Assistant)

Foundations: Image, Ohio University (assisted Karla Hackenmiller), Spring 2016 Image explores the making of still, moving, informational, and anthropological investigations of images, image systems, and cultural contexts. This is a cross-disciplinary studio art foundations course emphasizing how similar concerns and principles can be applied to a variety of forms, materials, and traditions. Students will gain experience and direct knowledge from hands-on exploration through a variety of ways of thinking about and applying image.
